**No software. No CD-ROMs. No downloads.
No special or heavy equipment. No hassles.
Save time and money now.
Test in 5 minutes or less.
Simply click and connect.™**

Online Testing

Each year, millions of clock drawing tests are administered across the world. This is the first and only *fully web-based* Clock Drawing Test, one of the most widely used cognitive assessment tests. Instant scores, reports, statistics, and feedback are provided through this unique web-based application that enables simultaneous review and comparison of data worldwide in real time.

This test effectively reduces wait time and costs associated with manual administration, semi-computerization, and use of other cognitive tests. No other visual attention assessment is as sensitive as the Automatic Clock Drawing Test™. Studies show that Automatic Clock Drawing Test™ results correlate with crash risk.

Automatic Clock Drawing Tests™ are powerful weapons in the global challenge against brain injury, cognitive impairment, and dementia. Online Automatic Clock Drawing Tests™ offer great potential for fitness-to-drive evaluations to reduce crashes. Optional computerized verbal learning and memory tests are available to monitor long-term changes in patients after head injury and to improve the recovery process.

Start screening and rehabilitating your subjects and patients now with the ACDT-MEDI-08.
