- Very fast, sensitive, & objective
- Self-service option
- Instant scores & feedback
- Records, prints, & saves results
- Graphics & statistics of data
- Scientifically proven
- Multimedia, interactive, & user friendly
- Many foreign languages
- Easily exports data
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Usable in a combat zone
- Military (24-hour) clocks
- Standard (12-hour) clocks
- Optimized for repeated administration
- Compliant with 21 CFR Part 11,
- HIPPA, ICH GCP, & ISO 9001:2000
- Ideal assistive technology
- **Engages people who are unable to draw or write**

Online Testing

Each year, millions of clock drawing tests are administered worldwide. This battery includes the first and only *fully web-based* Clock Drawing Test, Trail Making Test Part A, Trail Making Test Part B, Verbal Learning Test SA08™, and Memory Test SA08™. As an online tool, these tests are designed to save significant time and expense to rapidly detect and monitor memory loss that may be caused by cognitive impairment, cognitive decline, brain injury, or brain disease. All tests are administered on the Internet. Instant scores, reports, statistics, and feedback are provided through this unique web-based application that enables simultaneous review and comparison of data in real time.

Online testing effectively reduces bias, patient wait time, and costs associated with administration of other cognitive tests.

This powerful battery includes online verbal learning and memory tests to monitor long-term changes in subjects and to improve memory and the recovery process. No other tests compare.

Screen, monitor, and rehabilitate your subjects for memory loss now using the ACDT- ML-08.

Includes

- Automatic Clock Drawing Test™
- Trail Making Test, Part A
- Trail Making Test, Part B
- Verbal Learning Test SA08™
- Memory Test SA08™
