

# TBI AND MEMORY SCREENING ONLINE TEST BATTERY MODEL ACDT-TBI-M-08

Rapid, Sensitive, and Internet - based Traumatic Brain Injury & Memory Screening Test for hospitals, militaries, clinics, and other agencies.

No software. No CD-ROMs. No downloads.  
No special or heavy equipment. No hassles.  
Simply click and connect.™  
Use your own computer & Internet.

## Benefits

- Completely online
- Very fast, sensitive, & objective
- Self-service option
- Instant scores & feedback
- Records, prints, & saves results
- Graphics & statistics of data
- Scientifically proven
- Multimedia, interactive, & user friendly
- Many foreign languages
- Featured in journals & in the News
- Easily exports data
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Usable in a combat zone
- Military (24-hour) clocks
- Standard (12-hour) clocks
- Optimized for repeated administration
- Compliant with 21 CFR Part 11, HIPPA, ICH GCP, & ISO 9001:2000
- Ideal assistive technology
- **Engages people who are unable to draw or write**

## Includes

- Automatic Clock Drawing Tests
- Memory Test
- Verbal Learning Test

## Online Testing

Each year, millions of clock drawing tests are administered worldwide. This battery includes the first and only *fully web-based* Clock Drawing Test and is designed to save militaries and agencies significant time and expense to rapidly detect and monitor Traumatic Brain Injury, TBI. All tests are administered online through networked computers and laptops. Instant scores, reports, statistics, and feedback are provided through this unique Internet application that enables simultaneous review and comparison of data across the world in real time.

Automatic Clock Drawing Tests™ are powerful weapons in the global battle against TBI, the leading cause of disability and death. TBI is a serious challenge due to shrapnel wounds, blast wave phenomena, and car crashes. Online testing effectively reduces patient wait time and costs associated with administration of other cognitive tests.

This battery includes online verbal learning and memory tests to monitor long-term changes in patients after head injury and to improve memory and the recovery process.

*Screen and rehabilitate your subjects and soldiers now for TBI using the ACDT-TBI-M-08.*
