ONLINE DYNAMIC VISUAL ACUITY TEST FOR ATHLETES
MODEL DVA-SM-08
Rapid, sensitive, and Internet-based Dynamic Visual Acuity screening test
for worldwide Dynamic Visual Acuity training, monitoring, & rehabilitation of athletes

Benefits

- Completely online
- Very fast, sensitive, & objective
- Self-service option
- Instant scores & feedback
- Records, prints, & saves results
- Graphics & statistics of data
- Scientifically proven
- Multimedia & interactive
- User friendly
- Many foreign languages
- Easily exports data
- Touch screen Sytotechnology™ option
- Standardized & paperless tests
- Useful for all ages & cultures
- Ideal assistive technology
- Developed in accordance with National Academy of Sciences recommendations
- Optimized for repeated administration
- Compliant with 21 CFR Part 11,
- HIPPA, ICH GCP, & ISO 9001:2000
- Ideal assistive technology

Screens

- DVA & contrast sensitivity
- Integrated distances for far, near, & intermediate acuity (left & right eyes, binocularity)
- Night dynamic visual acuity option

Online Testing

All athletes require superior vision skills to successfully compete. Dynamic visual acuity allows for objective measures that can assist in team member selection. This is the fastest online dynamic visual acuity screening test product. Instant scores, reports, statistics, and feedback are provided through our unique web-based application that enables simultaneous review and comparison of data, between sport teams, coaches, and physicians, across the world in real time.

Dynamic visual acuity (DVA) measurements are commonly used in NASA space travel studies and applications. The National Academy of Sciences reports that dynamic visual acuity is “…most predictive of real-world task performance…” Contrast sensitivity and DVA, combined, are recommended for a stronger measure of daily visual acuity.

Click and connect your team today.

Start improving vision performance now by rapidly screening the dynamic visual acuity of your athletes using the DVA-SM-08 by SpecialtyAutomated™.
